

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

DEUTSCHLAND IM ORIENT NACH DEM BALKANKRIEG. Vom Ernst Jäckh. 158 pp. M. Mörike, München, 1913. Mk. 2. 8½ x 5½.

THE HANDBOOK OF CYPRUS. 7th issue (1913). Revised and edited by Harry C. Lukach and Douglas J. Jardine. With maps, plans and 12 illustrations from photographs by Sir Hamilton Goold-Adams. xi and 307 pp. Index. Edward Stanford, Ltd., London, 1913. 5s. 7 x 5. [The good quality and usefulness of this Handbook are well known.]

OCEANOGRAPHY

THE SPEED AND CURRENT CHRONOGRAPHER. By Captain A. G. Noble. xi and 376 pp. Charles Birchall, Ltd., Liverpool, 1913. 6s. 6d. 5 x 4.

METHODOLOGY AND TEACHING

THE BRITISH EMPIRE WITH ITS WORLD SETTING. By J. B. Reynolds. Junior Regional Geography. viii and 200 pp. Maps, ills., index. A. & C. Black, London, 1913. 1s. 4d. 7 x 5. [Carefully compiled to meet the needs of young students. Greater attention given to natural than to political regions. The relation of the British Empire to the rest of the world is well set forth.]
